

FEATURES

Accessory that adapts to the F450 PRO machine to perform in a single maneuver a cut into triangular or circular portions, according to your needs.

DIMENSIONS

56 cm x 15 cm x 12.5 cm.

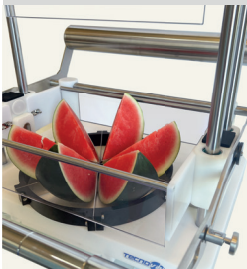

MATERIALS

Composed of POM pieces and stainless steel screws suitable for the food sector.

MULTIPLE CUTTING BLADE

Once we have the desired portions, we proceed to slice.

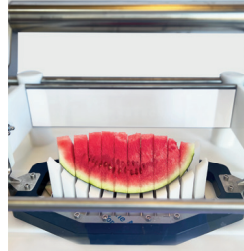

We replace the portion cutting blade with the multiple cutting blade.

We place the portion on the centering base

We proceed to make the cut by activating the lever downward.

We obtain the triangular portions in this way.

Clean and Waste-Free

Cut Double bevel blade in food-grade stainless steel.

Ease of use

The blade exchange is done easily and safely through the locking device.

Speed A

Accessory change is done in just 10 seconds.

Productivity

With this accessory, productivity increases since with a single operation, we obtain multiple portions.

Safety

With these types of blades, safety is maximum because at no time do we hold the fruit with our hands when cutting.
