

FEATURES

Accessory that adapts to the F450 PRO machine with a self-centering system and simultaneous fixation of two melons, facilitating the cut with total safety and precision.

DIMENSIONS

56 cm x 18 cm x 19 cm

MATERIALS

Composed of POM pieces and stainless steel screws suitable for the food sector.

DOUBLE CENTERING SUPPORT

We place the double centering support on the base.

We place the fruit on the double centering support to perform the cut.

We proceed to make the cut, pressing down the lever.

Ease of use

The double centering support is a fixation and self-centering system for fruits that adapt to their shape.

Speed

Accessory change is done in just 10 seconds.

Productivity

Accessory change is done in just 10 seconds.

Safety

This way, when using this double centering support, we will have maximum safety, as we will not hold the fruit with our hands at any time during the cut.
